

What are APKROMs?

APKROMs is an open playground for lovers of Android games & apps.

At APKROMs, you can easily search and download thousands of MOD APK, Premium APK, Games ROM, and Original APK games and apps for free. Use the search button to find what you're looking for, or browse the pre-designed categories

If you want to learn more about its history, development, future vision, etc., you can visit the introduction page.

Are APKROMs safe?

SURE!

APKROMs always uses the original APK from Google Play as the foundation for the birth of quality MOD versions. We even turn off unnecessary app permissions to optimize battery life and your privacy.

DON'T WORRY if security apps on Android give warnings. The reason is only because the signature of the MOD version has been changed compared to the original.

How do APKROMs work?

APKROMs compiles and publishes the best games and apps based on trends and requests from users.

You can then browse through the games and apps catalog to find the ones that suit your needs.

APKROMs takes feedback from you and other lovely users to continue to upgrade, and improve the playing field as well as the quality of MOD versions posted in the future.

What makes APKROMs different from other websites?

Free, simple, and mindful.

Does APKROMs charge a fee?

NO.

APKROMs is completely free and always will be. We will try to maintain the project for as long as I can. If you love this project and want to be a part of it, we'd love to get your support.
